

Invetech to Exhibit at the Society for Biomolecular Sciences' 12th Annual Conference

(September 1, 2006): San Francisco) Invetech, a leading engineering services company specializing in custom automation and instrument development, announces it will be exhibiting at the Society for Biomolecular Sciences' 12th Annual Conference and Exhibition. The company will be demonstrating its expertise in automation and integration from large scale laboratory systems to benchtop instruments, on booth #107.

Invetech is an engineering services company with extensive experience in solving automation challenges for laboratories and instrument companies working in life sciences, diagnostics and pharmaceutical/biotech laboratories. With a track record in improved reliability, durability and system throughput, the company's expertise crosses a number of disciplines crucial to the drug discovery process including liquid handling, plate handling, robotics, software interfaces, optics, robotics, specialized detection systems, miniaturization, and integration.

The Society for Biomolecular Sciences' 12th Annual Conference and Exhibition is an annual event taking place on September 17 – 21, 2006 in Seattle, Washington. The theme of this year's exhibition focuses on Advancing Drug Discovery and the importance of existing and emerging technologies to improve the quality of patient care. This will be Invetech's first appearance at the Society for Biomolecular Sciences' Annual Conference and Exhibition.

Paul Dovile, Manager of Life Sciences, Robert Speziale, Vice President of Business Development and Jari Palander, Vice President of Operations, North America, will be representing Invetech at the conference and will be available to discuss Invetech's engineering expertise.

For more information about Invetech's innovative instrument development techniques and custom automation services, please contact Invetech on instruments@invetech.us, visit the website www.invetech.us, phone East Coast US: +1 203 675 4502, West Coast US: +1 415 533 1958, or visit on booth #107 at the Society for Biomolecular Sciences' 12th Annual Conference and Exhibition.
